

# BAGAIMANA MEMILIH PROFESOR YANG COCOK

- **Check** publikasinya (terutama yang terbaru)
- **Check** PROFESSOR di *Rate My Professor* atau *Koofers* (terutama utk US)
- **Check** di Youtube jika beliau memberikan kuliah on-line
- **Check** Bid. Studi dari Prof tersebut di website atau blog
- Tanya kepada mantan mahasiswanya
- Jika merasa sudah cocok baru kontak

A navigation bar with a blue background and white icons representing various academic fields (science, art, engineering, law, etc.). Below the icons are three black buttons with white text: "FIND A", "FIND A", and "RATE A".

## PROFESSOR RATINGS

**Overall rating**  
Rated by 411 students

**3.38**  
Avg GPA  
across 6 classes

### Best Professor Ratings

Ever finish the semester and ask yourself, "I wonder if there is a website where I could rate my professors so I could help future students pick the best teachers and classes?" If so, you are in luck, because Koofers provides college students with a detailed view of a course and teacher before you even register for it so you know exactly what you're getting into.

### College Student Reviews

With one of the largest and most comprehensive databases of school, campus, and class ratings, you now can read reviews from other students about your classes, professors, teachers, and instructors. Reviewing these evaluations will help you make a more educated decision on what and who to take in the upcoming semesters and years to come.

**PHYS 2305**  
Foundations of Physics I

★★★★★

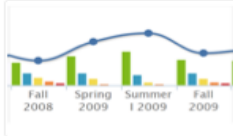

Completed course subject review on May 21, 2008

Amazing teacher. Quite frankly I learned more in this class than any other class I've had. The homework was challenging and the quizzes were easy. I would highly recommend this class to anyone who is interested in physics.

If you have to take physics, change it to the best teacher I've had.

Also, although he says he uses the best teaching methods, if you can do the questions/lectures, you can do the exam.

Helpful Rating? [YES](#) | [NO](#)

**Free Grade Distribution Database**

Understand how your professor grades you. Get the actual, official grade distribution data directly from university records on Koofers. Professor grading histories, GPA records, and GPA breakdown histories provide you with the facts about courses and professors at your college. Utilizing this database also allows students to quickly find the easiest classes and the hardest classes at your college. Think you have a hard or easy professor? Double check the facts for free at Koofers.
